

## Training for refugees

Since the end of 2018, the ELTERNCAFÉ has been held regularly and has helped many people with a refugee background the path to vocational training.

For this, we won second place at the Düsseldorf Integration Award in 2020. Now we are here for you again and invite you to the rooms of the IHK.

Young refugees and their parents do not know the German training system from their home countries. Therefore, we enable them to learn about the variety of apprenticeship professions and the requirements of vocational training. The association Düsseldorf-aktiv e.V. and the Chamber of Industry and Commerce (IHK) Düsseldorf invite refugee parents, caregivers, and interested refugee apprenticeship seekers to an exchange with experts about the opportunities and possibilities of vocational training.

Rachid El Mellah, the IHK Welcome Pilot, and our international training ambassadors, who are currently undergoing training, will inform the participants about the special features and opportunities of dual vocational training in Düsseldorf and will be happy to answer any questions you may have. You will also have the opportunity to make an appointment for a personal consultation..

Please register by **10.05.2022** via the **LINK** oder **QR-Code**.
